

ClippCut: read your script, look at the lens, post the video

A video recorder in your browser with a teleprompter right under the camera, captions timed from your script, and an MP4 shaped for TikTok, Reels, Shorts or LinkedIn. No app, no account, no upload.

Record: clippcut.com/record · Plans: clippcut.com/pricing · Updated October 2026

What ClippCut is

Most people film the same short video several times because they forget their lines or look away from the lens to read. ClippCut puts the script just under the camera while you record, so you read it while looking at your audience, then turns the take into a captioned video ready to post.

- **Free:** recording with the teleprompter in every shape, voice follow, recording by section (redo just one part), practice runs, safe-zone guides, trimming, sharing, Pop captions in the video and the .srt captions file. Free videos are 720p, up to 60 seconds, with a small mark.
- **ClippCut Pro** removes the mark and adds 1080p, 5-minute takes, every caption style, every shape from one take, jump cuts, animated stickers and the Graphics studio: Creator Pass \$8 for 30 days, or ClippCut Pro \$49 per year. Plans never renew automatically.
- **Private by design.** Recording happens on your device and takes stay in your browser until you share or delete them.
- **No account.** Pro uses a name and passcode instead of an account, on any phone or computer.

Record your first video

- 1 Open clippcut.com/record on your phone or computer and allow the camera and microphone.
- 2 Paste your script, or pick a ready-made one from the [script library](#). A line starting with # becomes its own section.
- 3 Choose the shape (9:16, 4:5, 1:1 or 16:9) and do a practice run to set the speed, or turn on voice follow.
- 4 Record, review the take with captions from your script, then save the MP4 or share it straight to your apps.

Free and Pro

	FREE	PRO
Teleprompter under the lens, voice follow, practice runs	Yes	Yes
Record by section and redo just one part	Yes	Yes
Safe-zone guides, trimming and sharing	Yes	Yes
Captions from your script	Pop style and .srt file	Every style
Video quality and length	720p, up to 60 seconds	1080p, up to 5 minutes
ClippCut mark on the video	Small mark	None
Every shape from one take, jump cuts, stickers, Graphics studio export	No	Yes

Creator Pass: \$8 for 30 days. ClippCut Pro: \$49 per year. Compare plans at clippcut.com/pricing.

Every shape you post

SHAPE	POST IT TO
9:16	TikTok, Instagram Reels, YouTube Shorts, Stories
4:5	Instagram and Facebook feed
1:1	Square feed posts, LinkedIn, carousels
16:9	YouTube, LinkedIn, websites and presentations

How recording, captions and sharing work, step by step: [How ClippCut works](#).

Every guide on the site

Each title below links to the full guide on clippcut.com.

Real estate

Listing tours, just-sold posts and market updates: scripts written for agents, a recorder with the prompter under the lens, and captions spelled right. [All real estate](#).

Video app for agents

Record listing tours, just-sold posts and market updates with your script under the lens, captions spelled right and every shape from one take. In your browser.

Listing video tour

Plan, script and film a 60-second listing video room by room on your phone: what to say, where to stand, and how to post it to Reels, TikTok and YouTube.

Market update video

A market update video in under two minutes: which three numbers to share, how to explain them to buyers and sellers, and a script to read on camera.

Video ideas for agents

Real estate video ideas that bring in buyers and sellers: listings, just sold, market updates, tips and stories, each with a free script to record.

Fair housing checklist

A checklist to run before you post a real estate video: describe the property not the people, show your brokerage, get permission, and cite your numbers.

Uses

How to record for each platform with ClippCut: the right shape, captions and file. [All uses](#).

TikTok

Record TikToks with your script scrolling right under the lens, captions timed to your words, and a 9:16 MP4 ready to post. Free in your phone's browser.

Instagram Reels

Record Instagram Reels and feed videos while reading your script under the lens. Vertical 9:16 or 4:5, captions from your script, saved as MP4.

YouTube Shorts

Record YouTube Shorts in 9:16 and full videos in 16:9 with a teleprompter under the lens. Captions as an .srt file for YouTube Studio.

LinkedIn video

Record LinkedIn videos with your script under the webcam or phone camera. Square, 4:5 or 16:9, captions included, nothing to install.

Features

What ClippCut does: captions timed to your script, a vertical video recorder in the browser, MP4 export and offline use. [All features](#).

Captions from your script

Animated captions from your script: spelled right, timed as you read, your **bold** words burst out. Drawn into the video on your device, or saved as .srt.

Vertical video recorder

Record vertical 9:16 video in your browser on a phone or computer, with a teleprompter, trimming and MP4 export. Works offline.

Redo one line

Record your script section by section and redo only the part you got wrong. ClippCut joins the sections into one video, trimming the silence between them.

One take, every shape

Make a TikTok, an Instagram feed post and a YouTube video from one take. ClippCut reframes your video for each shape at the same time.

Cut the dead air

Trim the silence before your first word and after your last, and cut long pauses out of talking-head videos, on your device, with no upload.

Sports graphics

Make score cards, lower thirds, player stat cards and callouts that follow a player for your videos, right in the browser. No upload, no editor needed.

Hook generator

Opening lines that stop the scroll: 20 proven hook formulas filled with your topic, and a score for the hook you wrote. Free, no sign-up, nothing uploaded.

Safe zones

See where TikTok, Reels and Shorts put their buttons and captions while you record, and keep your face and captions clear of them.

Compare

How ClippCut compares with the teleprompters inside Instagram and TikTok. [All compare](#).

vs Instagram and TikTok

Instagram and TikTok now have teleprompters in their cameras. Here's what they do well, where they stop, and when a separate recorder like ClippCut helps.

Devices

Set up ClippCut on your phone: Safari on iPhone and iPad, Chrome on Android. [All devices](#).

iPhone and iPad

Use ClippCut in Safari on iPhone or iPad: record with a teleprompter under the front camera and share the MP4 straight to TikTok or Instagram.

Android

Record vertical videos on Android with a teleprompter under the lens. ClippCut runs in Chrome, makes MP4 and shares straight to your apps.

Ready-made scripts

Scripts written to be read on camera, each with timing and tips. Open one in the recorder with a tap. [All scripts](#).

Hook, tip, call to action: a 30-second Reel, TikTok or Short

The shape most short videos that work share: stop the scroll in two seconds, give one useful thing, tell people what to do next. Free script.

Show your product in 60 seconds

Problem, product, proof, price: a vertical video that sells without sounding like an ad. Free script, about 1 minute to read.

Introduce yourself: LinkedIn, a profile or a pinned post

Who you are, who you help and why you — in under a minute, warm and specific. Free script, about 1 minute to read.

A how-to in three steps (Shorts, Reels, TikTok)

Teach one small thing well. Numbered steps keep people watching to the end. Free script, about 45 seconds to read.

Weekly update video for your team or audience

A short, steady update people actually watch: one win, one change, one ask. Free script, about 2 minutes to read.

Announce an event or launch on video

What, when, why it matters and how to get in — said with energy in under a minute. Free script, about 45 seconds to read.

3 tips in 45 seconds: a list video for Reels, TikTok or Shorts

Numbered tips keep people watching to the end. Promise the list in the hook, deliver it fast, save the best for last. Free script, about 45 seconds to read.

Myth vs. fact: correct a common mistake in your field

Name a belief your audience holds, show why it's wrong, and give the better way. Great for experts building trust. Free script, about 45 seconds to read.

Customer story: before, after and what changed

Tell one customer's story in under a minute. Stories sell better than features, and they don't feel like ads. Free script, about 1 minute to read.

Behind the scenes of your business

Show how something gets made or done. People buy from people, and this is the easiest video to film. Free script, about 45 seconds to read.

Answer the question you get asked most

Turn one frequent question into a short video. Reply with it in comments and messages forever. Free script, about 30 seconds to read.

UGC-style ad: an honest review of a product you use

The selfie-video ad format brands pay creators for: hook, real problem, honest demo, one call to action. Free script, about 30 seconds to read.

Property listing video for real estate agents

A 60-second vertical walkthrough of a listing: the hook, three standout features, the neighborhood and how to book a viewing. Free script.

Feature a dish for your restaurant or café

Show one dish or drink up close, tell the one detail that makes it yours, and give people a reason to come in this week. Free script, about 30 seconds to read.

LinkedIn video: one lesson from your work

A calm, one-minute talking-head video sharing a lesson you learned, the kind that gets comments from people in your field. Free script, about 1 minute to read.

YouTube video intro that keeps people past 30 seconds

The first 30 seconds of a longer video: confirm the promise in the title, show the payoff, and get to it. Free script, about 30 seconds to read.

New listing: a 60-second video tour

Walk viewers through a new listing room by room: the price and best feature first, the details that matter, and how to book a showing. Free script.

Just sold: share the result in 30 seconds

Turn a closing into proof that you get results: what sold, how it went and what it means for the next seller. Free script, about 30 seconds to read.

Open house invitation video

Get people to the door: the when and where up front, two reasons to come, and what to bring. Free script, about 30 seconds to read.

Monthly market update for your area

Three numbers, what they mean and one tip: a market update buyers and sellers actually watch to the end. Free script, about 1.5 minutes to read.

Meet your agent: an introduction video

Who you are, where you work and how you help, warm and specific, for your profile, website or pinned post. Free script, about 1 minute to read.

Three tips for first-time buyers

A numbered how-to that keeps people watching and positions you as the agent who explains things clearly. Free script, about 1 minute to read.

Getting your home ready to sell: three quick wins

Practical prep tips that show sellers you know what buyers notice, with a clear next step. Free script, about 1 minute to read.

Neighborhood spotlight video

Show an area through its places, not its people: parks, coffee, commute and what homes cost. Free script, about 1 minute to read.

Client story: how we won in multiple offers

A short story with a problem, a plan and a result, the kind of proof that makes buyers call you. Free script, about 1 minute to read.

Explain one real estate term in 30 seconds

Take one word buyers and sellers hear and don't understand, and explain it simply. Easy to make into a weekly series. Free script, about 30 seconds to read.
